GE23131-Programming Using C-2024

Correct

~	Т	Т	Т	~
	7 3 8	6	6	
~	R	R	R	~
	0 100 99	66	66

Question **2**Incorrect
Marked out of

5.00 № Flag question Some C data types, their format specifiers, and their most common bit widths are as follows:

- · Int ("%d"): 32 Bit integer
- · Long ("%ld"): 64 bit integer
- · Char ("%c"): Character type
- · Float ("%f"): 32 bit real value
- · Double ("%lf"): 64 bit real value

Reading

To read a data type, use the following syntax:

scanf("'format_specifier'", &val)

For example, to read a character followed by a double:

char ch

double d;

scanf("%c %lf", &ch, &d);

For the moment, we can ignore the spacing between format specifiers.

Printing

To print a data type, use the following syntax:

printf("`format_specifier`", val)

For example, to print a character followed by a double:

char ch = 'd';

double d = 234.432;

printf("%c %lf", ch, d);

Note: You can also use *cin* and *cout* instead of *scanf* and *printf*; however, if you are taking a million numbers as input and printing a million lines, it is faster to use *scanf* and *printf*.

Input Format

Input consists of the following space-separated values: int, long, char, float, and double, respectively.

Output Format

Print each element on a new line in the same order it was received as input. Note that the floating point value should be correct up to 3 decimal places and the double to 9 decimal places.

Sample Input

3 12345678912345 a 334.23 14049.30493

Sample Output

3

12345678912345

а

334.230

14049.304930000

Explanation

Print int 3,

followed by long 12345678912345,

followed by char a,

followed by float 334.23,

followed by double 14049.30493.

Answer: (penalty regime: 0 %)

Some hidden test cases failed, too.
Your code must pass all tests to earn any marks. Try again.

Question **3**Correct
Marked out of 7.00
Friag question

Write a program to print the ASCII value and the two adjacent characters of the given character.

Input

E

Output

69

DF

Answer: (penalty regime: 0 %)

	Input	Expected	Got	
~	E	69	69	~
		D F	DF
